

Los Alamos is calling you...

Los Alamos National Laboratory Environment, Safety, Health, and Quality Directorate

Environment, Safety, Health, and Quality (ALDESHQ) provides expertise in environmental protection and stewardship, radiation protection, industrial hygiene, and waste management. We provide mission enabling services by protecting people, resources, and the environment.

We are hiring nuclear professionals, industrial hygiene & safety professionals, materials, health physicists, biologist interns, system and rad workers, and occupational safety and health who will graduate in spring of 2024. We also have internship opportunities for undergraduate and graduate students. To be eligible, candidates must be US Citizens. When you join ALDESHQ your career will impact the future of national security. These positions are for employment at LANL in Los Alamos, which is in beautiful northern New Mexico. On Tuesday and Wednesday, October 29th and 30th, 2024, ALDESHQ hiring managers will be conducting interviews for the following positions:

- [ESH&Q Post Master Student](#)
- [ESH&Q Post Bachelor Student](#)
- [Construction Safety \(Industrial Hygiene & Safety Professional 1/2\)](#)
- [Environmental Professional 1/2](#)
- [Health Physicist 1/2](#)
- [Waste Sampling Technician 1/2 \(Environmental Tec 1/2\)](#)

If you are interested in being interviewed, please complete the Interview Interest Form [here](#).
Selected candidates will be scheduled for an interview during our visit.
