

Los Alamos is calling all Engineers!

Facilities and Operations (ALDFO)

The Facilities and Operations Directorate is looking for exceptional engineers to help develop, maintain, and apply a diverse set of engineering capabilities that provide innovative engineering solutions to enable the Laboratory's scientific and national security mission.

ALDFO is responsible for facility operations, maintenance, engineering, site infrastructure, campus master plan, and real estate management for 8.4 million square feet of laboratory.

We offer a wide variety of engineering opportunities just right for you.

LANL is hiring **engineers** for full time and internships positions with BS and MS degrees, who are US Citizens. These positions are for employment at LANL in Los Alamos, New Mexico located in beautiful Northern New Mexico..

Los Alamos is on Campus!!

Tim Jacquez (Lead Recruiter) and his team will be available Tuesday October 29th & Wednesday October 30th from 9am – 4pm in the Zachary Building in front of the Chevron Rooms. The team will be conducting interviews, talking with students about Los Alamos and handing out information and giveaways. Come Say hi and meet the team!

If you are interested in interviewing with the Facilities and Operations team and talking about opportunities with LANL that best fit you, please email your resume to tjacquez@lanl.gov and Tim will set a time to meet during this event.
